## FALL 2024

---

### ISSUE 2 | 09/11/2024

Coming into the second month of the semester, having some experience in navigating around campus and classes, it is now the opportunity to explore the multitude of opportunities that are available here at the University of Georgia. Now is the time to explore your interests, try something new, attend an event that makes you feel the unbreakable spirit that is ever-present around this campus. Now is the moment to find your group - those with whom you start to feel more comfortable with, and while this may feel overwhelming and difficult in a campus the size of UGA, there are many resources and individuals that can help guide you along the way. To start off, simply engage with a professor in your favorite class, never be afraid to ask for help or guidance toward a certain passion or goal. Explore the club website to discover the thousands of opportunities to get involved at UGA, or even attend an event around campus that promises fun activities and a chance to meet others who share similar interests. Please always remember that there are resources to assist you in not only your academic journey, but with your mental and physical health as well, which are just as important. Attending university should be a rewarding experience, full of endless joys and a constant strive to improve oneself, learning from others around you and your own mistakes. You are here, now, as a student to embark on a journey that propels you forward into a bright future full of endless possibilities. Try to enjoy every moment.
