Using vLAB to access Athena from off campus

Copy or type the following URL into your browser: [https://eits.uga.edu/support/vlab/](https://eits.uga.edu/support/vlab/)

It takes you to the support page. Click vlab.uga.edu

Use your UGA myID and password to log into vLAB

vLAB functions as a VPN

Click on the vLab icon

Use your phone to authenticate your login information.

Check the “Remember Me for 30 Days” box BEFORE sending notification to avoid this step each time you use vLAB.
Click on the arrow under the vLab icon to launch the program.

Be patient. It takes a few minutes for the program to load!

This is what the home screen for vLAB looks like.

It now functions like a VPN for off campus use.

Click on the Chrome (or other browser)
This is what Chrome looks like.

Type athena.uga.edu in the browser field.

As with any browser, you will be asked to authenticate your credentials.

Login again, just as you would any time you access Athena.

You are now able to use Athena as you would from campus.
